Renewal Form

For
Sticker 2022 - 2025
Requires information
from
2018-2021

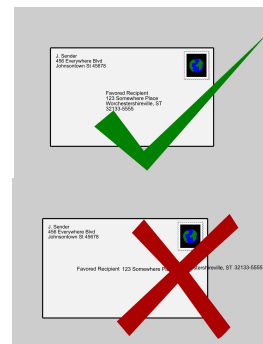

Name: _____ IAC Certificate No. _____

First Name / Middle Name/Initial / Last Name/Family Name

Address: _____ Mr. Ms. Mrs PhD

Country: _____

E-Mail: _____

CREDITS CLAIMED

Category 1: Employment in cytology _____

Category 2: Educational activities _____

Category 3: Cytology teaching _____

Category 4: Papers, publications, books and exhibits _____

Category 5: Research in cytology _____

TOTAL CREDITS CLAIMED (180 required)

Please refer to pages 2 and 3 for information on how to calculate Continuing Education Credits for each category. Please transfer the **TOTAL** number of credits claimed for each category to the **CREDITS CLAIMED** column to the left.

AFFIDAVIT SIGNED BY APPLICANT

I solemnly declare that, to the best of my knowledge, all CREDITS CLAIMED above are true.

Date: _____ Signature: _____

Please return the completed form to the IAC office as email attachment or by post to:

Email: centraloffice@cytology-iac.org

Fernando Schmitt, MD, FIAC

THE INTERNATIONAL ACADEMY OF CYTOLOGY

RENEWAL CRITERIA FOR IAC-REGISTERED CYTOTECHNOLOGISTS

The information that follows is for the cytotechnologist registered by the **International Academy of Cytology**. The information given concerns the varieties of continuing education credits that may be earned toward renewal of the IAC certificate.

Once a cytotechnologist has earned the IAC certificate he or she has the responsibility or obligation to maintain that certificate by continuing education in the field of cytology. There are several ways in which the cytotechnologist might fulfill this obligation. One of the major ways and one which is available to most cytotechnologists is through the establishment of an in-service laboratory education program in which constant review of ones' work is performed on a regular basis.

Renewal is required for Cytotechnologist Members (CMIAC)s, CT(IAC)s and CT(IAC-GYN)s cytotechnologists who wish to continue to use these designations following their name. Your IAC Registry Certificate may be extended every four years by acquiring 180 continuing education credits within the four-year period. If you have problems maintaining your certificate the Office of the Registry is available for consultation.

Please note that renewal can only be applied for by submitting activities that have occurred within each four-year period from the anniversary examination date or the last renewal period. Continuing education credits cannot be given for activities prior to taking the examination, nor can a future four-year extension be earned in advance of the four-year period in which the continuing education activities occur.

CATEGORY 1 - EMPLOYMENT IN CYTOLOGY

FULL-TIME EMPLOYMENT IN CYTOLOGY: Twenty-five (25) continuing education credits for each year of full-time employment.

PART-TIME EMPLOYMENT IN CYTOLOGY: Fifteen (15) continuing education credits for each year of part-time employment.

Please inform us of the type of work you usually carry out.

CATEGORY 2 - EDUCATIONAL ACTIVITIES

FORMAL PROGRAMS

Continuing education credits may be claimed for formal courses taken during the four-year period in colleges and universities. Courses may relate directly to the field of cytology, education, management, computer technology or in some way toward a degree or advanced degree.

EXTERNAL EDUCATIONAL ACTIVITIES

All educational activities must relate to cytology or some phase of your role within the cytopathology laboratory. These educational activities may be sponsored by local, regional, national or international organizations.

INTERNAL EDUCATIONAL ACTIVITIES

Educational activities may include in-service programs, hospital grand rounds, teleconferences, etc., given within the laboratory.

CATEGORY 3 - CYTOTECHNOLOGY TEACHING

Credit in this category is given for documented teaching and preparation time in the presentation of new lecture topics, i.e., an individual cannot obtain credit each time the same lecture is given. Credit can only be given for the initial presentation. Credit will be given those serving as directors, co-directors or as faculty members of workshops. Full and part-time instructors will be given credit for their teaching responsibilities.

CATEGORY 4 - PAPERS, PUBLICATIONS, BOOKS AND EXHIBITS

More credit will be given for publication of articles in a major medical journal, but ample credit will be given for articles published in regional newsletters and national bulletins. Please reference the title of the article.

Credit will also be given for the preparation of papers to be presented at meetings. This type of credit will be issued only once for initial preparation and presentation. More credit will be considered for presentations at national and international meetings.

CATEGORY 5 - RESEARCH IN CYTOLOGY

Credit will be given for participation in research programs if documentation is made of the candidate's role by the project director. Each activity will be evaluated separately by the Registrar's office.
